 - C. Regional/State Board Updates
 - D. Fill Stations Update
 - E. Managment Zone Update
-

6 Groundwater Protection Values Update Report for Crop Years 2020 - 2022

The General Order requires development of a Groundwater Protection (GWP) Formula, which is then to be used to calculate GWP Values for high-priority townships. GWP Targets are then developed for each GWP township. The purpose of the GWP Targets is to set a desired target for achieving compliance with nitrate receiving water limitations. The Groundwater Protection Values Report for Crop Years 2020, 2021, and 2022 is an update to the 2021 GWP

Values Reports and includes GWP Values for 404 GWP Townships based on 2020, 2021, and 2022 crop year data. MLJ Environmental will present on the report submitted in May 2025 to the Regional Water Quality Control Board.

7

Second Statewide Agricultural Expert Panel

In 2021, the Central Coast Regional Water Board adopted [R3-2021-0040](#), *General Waste Discharge Requirements for Discharges from Irrigated Lands* (2021 Central Coast Ag Order). The new Central Coast Ag Order went beyond the precedential requirements set forth in [Order WQ 2018-0002](#), *In the Matter of Review of Waste Discharge Requirements General Order No. R5-2012-0116 for Growers Within the Eastern San Joaquin River Watershed that are Members of the Third-Party Group* (Eastern San Joaquin Water Quality Order), setting regulatory limits on nitrogen discharge, limits on nitrogen application, and allowing growers to factor in discounts to nitrogen applied (A) and additions to nitrogen removed (R). Following petitions seeking State Water Board review the 2021 Central Coast Ag Order, the State Water Board adopted

8

Financial Report

The Assistant Treasurer will present the Investment Report to the Board.

9

Next Meeting Date and Agenda Items

The date of the next meeting will be announced, and Directors may request that items be added to the next meeting's agenda.

10

ADJOURNMENT

The meeting will adjourn.
